Year 11 Exam Information Evening

22.10.26

Huish Episcopi Academy
The best in everyone™
Part of United Learning

Key Dates for Year 11 students

- Year 11 Mock exams window - 2nd -18th November
- Year 11 Parents' Evening - 3rd December
- Winter Formal - 4th December
- February mock exams 6th-26th February
- Year 11 results and Exam Information Evening - March 24th
- GCSE exams in 2026 are scheduled to start from the week commencing Monday, 3 May and finish on Monday, 21 June.
- Contingency day – Wednesday 23rd June
- Prom 1st July

Huish Episcopi Academy
The best in everyone™
Part of United Learning

WHY PRIORITISE THESE MOCKS?

1. We don't complete a full mock series due to time constraints on a 4-week programme. This is the only opportunity to be examined in this specific content.

2. These grades will form the main basis on which predicted grades for 6th Form/College references are based.

3. Building habits in advance will ensure that the cognitive load is lowered when we reach public examinations – follow the procedures now so that they are second nature.

4. Any revision input now will not be wasted. Spacing out learning will mean that anything you can commit to your long-term memory now will pay off next summer.

A plea – do not cheat yourself of an opportunity to get accurate feedback by researching any papers. It just means we can't then support you effectively.

ADAPTATIONS TO THE DAY

Examinations during the mock period will take place at the following times:
9am
1pm

This is due to timetabling constraints and the length of exams.

Any afternoon exam that impacts lunch will result in a change of the school day for those students – and lunch will always be moved to the start of P4 (12:30pm).

The school will be open from 7:30am every day during the mock examination period, with breakfast provided. There is no obligation to arrive early, but this could be an excellent routine to get into ahead of exams.

TIERING

Maths
Combined Science
Biology
Chemistry
Physics
French
Spanish
German
Home Languages

Different tiers of entry:

Foundation: Grades 1-5

Higher: Grades 4-9

Risk: Students who do not achieve Grade 4 in the Higher paper will be awarded a U. *January mock exam results inform tier of entry.

Summer 2026 exams

AQA
Questions matter

8700

GCSE English Language

Paper 1 24th May
Paper 2 8th June

8702

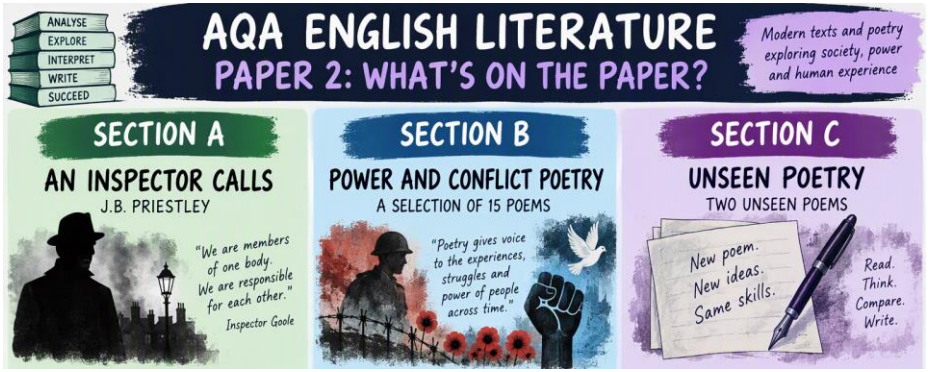
GCSE English Literature

Paper 1 12th May
Paper 2 19th May

Huish Episcopi Academy
The best in everyone™
Part of United Learning

Forthcoming November mocks

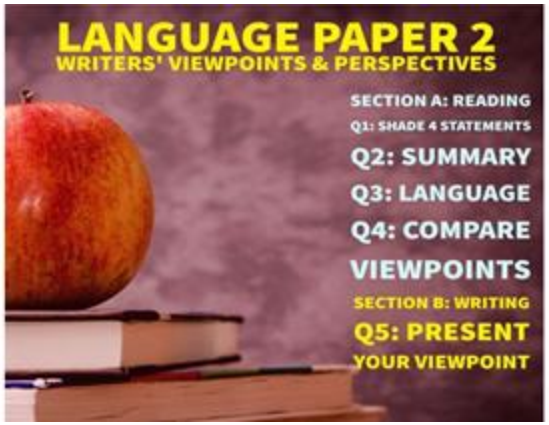
Literature: Monday 2nd November



Two 30-mark essays on set texts (closed book exam) and two 'shorter' essays on unseen poetry

Students need to prioritise Literature revision at home.

Language: Thursday 5th November



40 marks for Section A Reading; 40 marks for Section B Writing

Writing is worth HALF the total GCSE Language grade - worth investing in!

Huish Episcopi Academy
The best in everyone™
Part of United Learning

Testing half of the content now

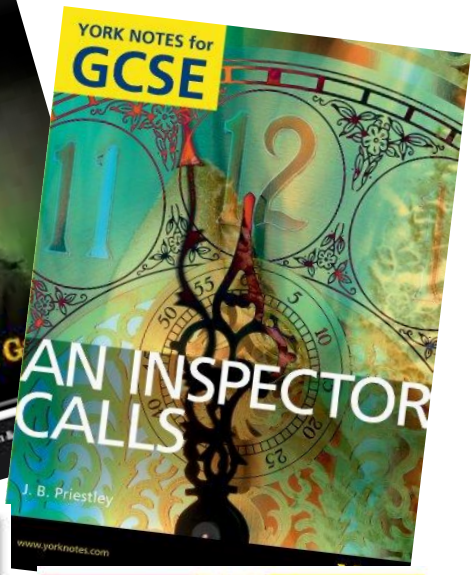
Paper 1 Language and Paper 1 Literature will be tested in **February.**

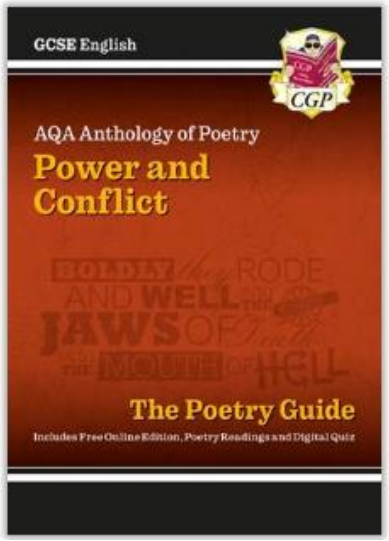
Huish Episcopi Academy
The best in everyone™
Part of United Learning

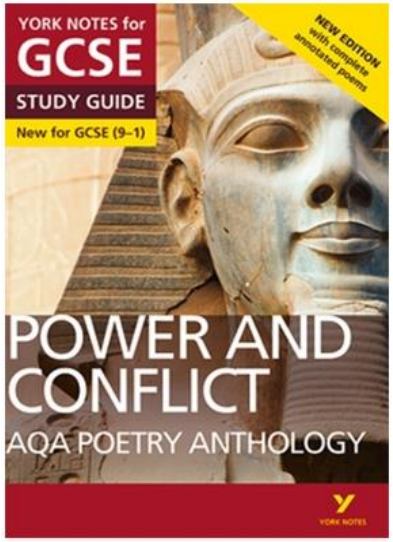
Revision: knowledge versus skills

- Literature contains the content that students need to **know** (Eng Lang is unseen)
- Students will have a taught strategy for every exam question, so they **know** how to approach it
- But the revision of **skills** will only be achieved by completing practice questions (a minimum of 8 marks in Language, and generally 30 marks in Literature)

Revision guides for **knowledge**

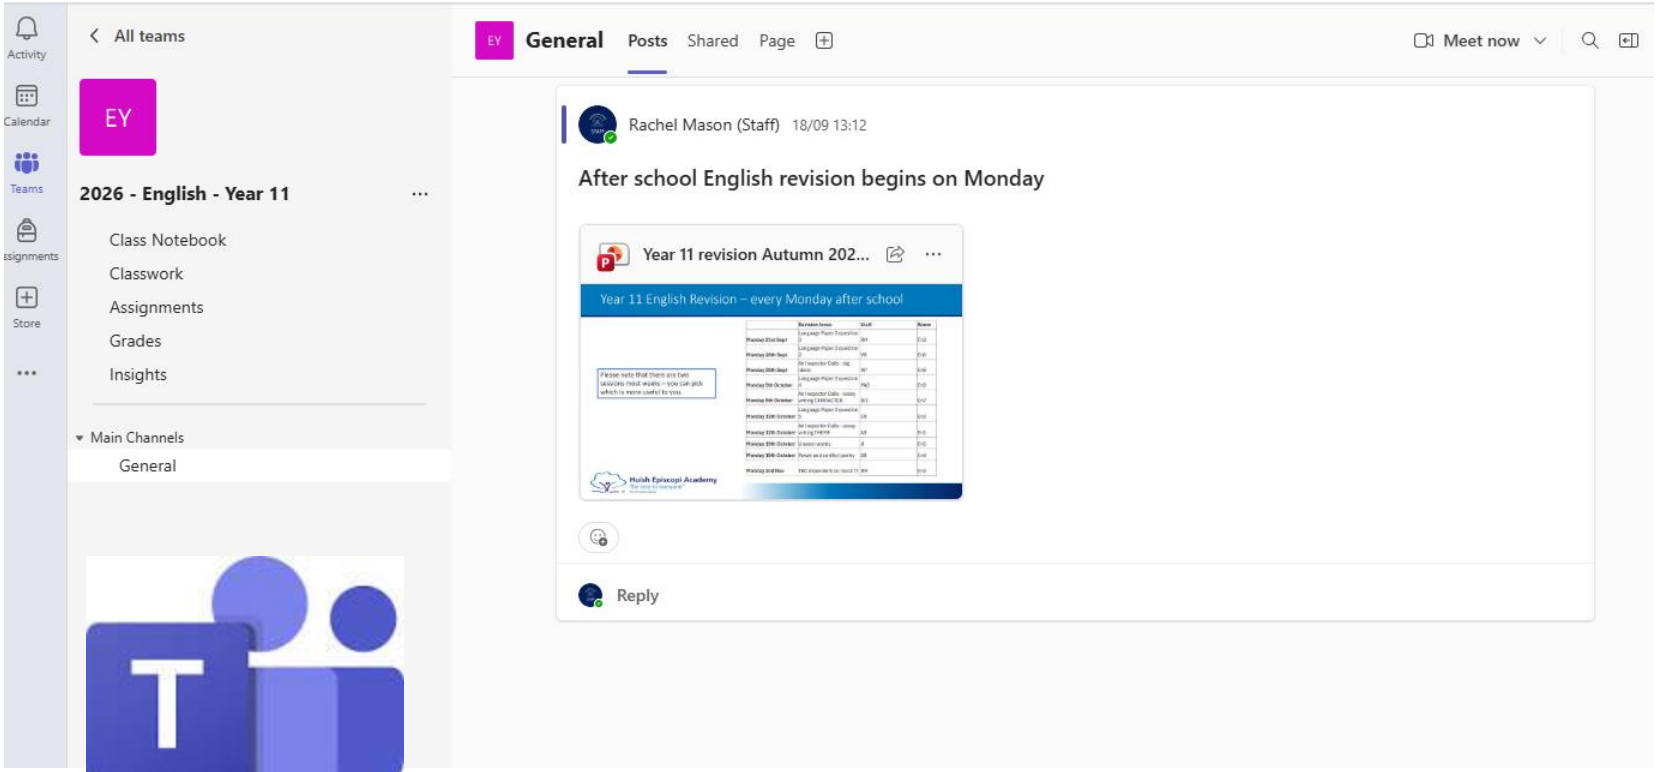






- **CGP** – highly visual – perhaps best for those aiming for **Grade 4/Grade 5**

- **York Notes** study guides perhaps best for those aiming for **Grade 6+**



- Revision resources centrally compiled
- Key messages will be posted here eg weekly revision topics

Huish Episcopi Academy
The best in everyone™
Part of United Learning

How you can help:

- Read widely (fiction **and** non-fiction)
  Even just reading openings of texts of different genres – ask them questions like WHAT/HOW/WHY?
- Quiz on knowledge organisers – context, quotations, key words
- Time them to complete some practice answers
- Students ideally need highlighters for the exam – picking out different info for different questions

MATHS

Formulae Sheets

Foundation Tier Formulae Sheet

Perimeter, area and volume

Where a and b are the lengths of the parallel sides and h is their perpendicular separation:

Area of a trapezium $= \frac{1}{2}(a + b)h$

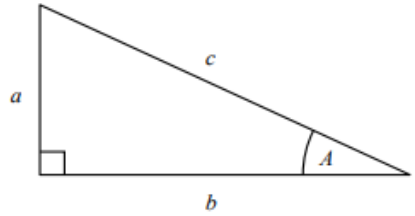
Volume of a prism = area of cross section × length

Where r is the radius and d is the diameter:

Circumference of a circle $= 2\pi r = \pi d$

Area of a circle $= \pi r^2$

Pythagoras' Theorem and Trigonometry



In any right-angled triangle where a, b and c are the length of the sides and c is the hypotenuse:

$a^2 + b^2 = c^2$

In any right-angled triangle ABC where a, b and c are the length of the sides and c is the hypotenuse:

$\sin A = \frac{a}{c}$ $\cos A = \frac{b}{c}$ $\tan A = \frac{a}{b}$

Compound Interest

Where P is the principal amount, r is the interest rate over a given period and n is number of times that the interest is compounded:

Total accrued $= P\left(1 + \frac{r}{100}\right)^n$

Probability

Where P (A) is the probability of outcome A and P (B) is the probability of outcome B:

P (A or B) = P (A) + P (B) – P (A and B)

END OF EXAM AID

Higher Tier Formulae Sheet

Perimeter, area and volume

Where a and b are the lengths of the parallel sides and h is their perpendicular separation:

Area of a trapezium $= \frac{1}{2}(a + b)h$

Volume of a prism = area of cross section × length

Where r is the radius and d is the diameter:

Circumference of a circle $= 2\pi r = \pi d$

Area of a circle $= \pi r^2$

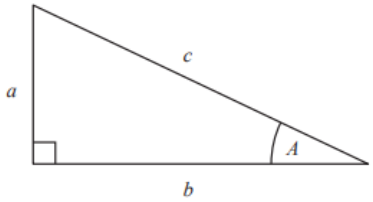
Quadratic formula

The solution of $ax^2 + bx + c = 0$

where $a \neq 0$

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Pythagoras' Theorem and Trigonometry

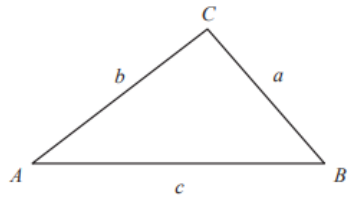


In any right-angled triangle where a, b and c are the length of the sides and c is the hypotenuse:

$a^2 + b^2 = c^2$

In any right-angled triangle ABC where a, b and c are the length of the sides and c is the hypotenuse:

$\sin A = \frac{a}{c}$ $\cos A = \frac{b}{c}$ $\tan A = \frac{a}{b}$



In any triangle ABC where a, b and c are the length of the sides:

sine rule: $\frac{a}{\sin A} = \frac{b}{\sin B} = \frac{c}{\sin C}$

cosine rule: $a^2 = b^2 + c^2 - 2bc \cos A$

Area of triangle $= \frac{1}{2} a b \sin C$

Compound Interest

Where P is the principal amount, r is the interest rate over a given period and n is number of times that the interest is compounded:

Total accrued $= P\left(1 + \frac{r}{100}\right)^n$

Probability

Where P (A) is the probability of outcome A and P (B) is the probability of outcome B:

P (A or B) = P (A) + P (B) – P (A and B)

P (A and B) = P (A given B) P(B)

POST MOCKS SUPPORT

After mocks, all Y11 students will receive a QLA – Question Level Analysis

This is crucial information that should then inform their revision from December through to the next set of mock examinations.

Please do ensure they are referring to this.

There will also be “Fix up” tasks on Sparx

Question			Your Score	Mark	Sparx Code	Independent Learning
Q1	1	Rounding to the nearest 10	1	1	U298	
Q2	2	Writing a fraction as a percentage	1	1	U888	
Q3	3	Rounding to significant figures	1	1	U731	
Q4	4	Multiplication and division with decimals	2	2	U293	
Q5	5	Inequalities on a number line	1	1	U509	
Q6	6	Area of compound shapes	2	2	U970	
Q7	7	Percentage of an amount	1	1	U349	
Q8	8	Write standard form as an ordinary number	1	1	U330	
Q9	9	Writing a ratio	1	1	U687	
Q10a	##	Solving one step equations	1	1	U755	
Q10b	##	Simplifying expressions	2	2	U105	
Q10c	##	Expanding a single bracket	1	1	U179	
Q10d	##	Factorising into a single bracket	1	1	U365	
Q11	##	Calculating speed	1	1	U151	
Q12a	##	Calculating probability	1	1	U510	
Q12b	##	Relative frequency	1	1	U166	
Q13	##	Pythagoras' Theorem	0	2	U385	
Q14a	##	Laws of indices (brackets)	0	1	U235	
Q14b	##	Laws of indices (multiplication)	0	1	U694	
Q15a	##	Completing table of values for quadratic	1	2	U989	
Q15b	##	Plotting quadratic graphs	1	2	U989	
Q16	##	Volume of a cylinder	2	2	U915	
Q17	##	Rearranging formulae	0	2	U181	
Q18	##	Volume of cuboids, metric conversions	3	3	U786, U388	
Q19a	##	Conversion graphs	1	1	U610	
Q19b	##	Conversion graphs, currency conversion	2	2	U610	
Q20	##	Solving simultaneous equations by elimination	3	3	U760	
Q21	##	Equation of straight line graphs	0	3	U315	
Q22a	##	Identifying types of graph	0	1	U667, U980, U593, U229	
Q22b	##	Identifying types of graph	1	1	U667, U980, U593, U229	
Q23a	##	Expanding double brackets	2	2	U768	
Q23b	##	Factorising a quadratic expression	2	2	U178	
Q24	##	Speed, distance, time	3	3	U151	
Q25	##	Solving simultaneous equations graphically	0	1	U836	
Q26	##	Pressure, force, area	3	3	U527	
Q27	##	Volume of sphere and cone, sharing into a ratio	1	4	U426

USING PAST PAPERS

There are lots of papers available on the Internet and after the mocks we will provide a past paper schedule along with lots of papers:

1. It is important that you don't just do the questions you can do – it is more important to find out how to do the ones you can't do.

2. Make sure you mark them – mark schemes are also provided on the Dept Website. Understanding the mark scheme helps you to understand how marks are gained and lost

3. If you continue to struggle on a topic, make a note and bring it in to ask a Maths teacher – any one of them will help you!

4. Try to build up to "a mark a minute" to practise timing

How can you help with Maths?

- Make sure they have all of their maths equipment
- Quiz them on key terms, formulae and TIMES TABLES
- Nearer to the exam help them with timings – “mark a minute”
- Look at their work to make sure that numbers are clear, working is coherent, and any sentences make sense
- Support them with marking their work accurately.
- The best way to revise maths is to DO maths!

Cell structures and microscopy

Question	Answer
1. What are the typical features of a eukaryotic cell?	Cell membranes, organelles, DNA in a nucleus
2. Give an example of a eukaryotic cell	Plant or animal cell
3. Give an example of a prokaryotic cell	Bacteria
4. How do prokaryotic cells compare with eukaryotic cells in terms of size?	Prokaryotic cells are smaller
5. What is different about the genetic material of bacteria?	It is not contained in a nucleus – it is free floating in the cytoplasm
6. What are the additional loops of DNA in bacteria called?	Plasmids
7. Name three cell parts often found in plant cells but not in animal cells	Cell wall, vacuole, chloroplasts
8. What is the function of the chloroplast?	Photosynthesis takes place here
9. What is contained in the vacuole?	Sap
10. What is the function of the cell wall?	Strength and support
11. What is the cell wall made of?	Cellulose
12 What is the function of the cell membrane?	Control what enters and leaves the cell
13. Where in a cell does respiration take place?	Mitochondria
14. What is the function of the ribosomes?	Making proteins
15. Name 3 structures found in a plant cell but not in an animal cell	Vacuole, chloroplast, cell wall
16. Which part of the microscope does the slide sit	Stage

TEAMS

On teams, all lessons will have been uploaded by the class teacher.

This includes, lesson power points, booklets and revision resources.

Students can also go back and re-do homework revision quizzes as a way of revising further.

Knowledge organisers

1. NATURE OF GOD		
Omni-benevolent	All-loving	God promises a "wounded victor" will defeat the serpent."
Omniscient	All-knowing	***"Even the very hairs on your head are numbered."***
Omnipotent	All-powerful	God created world ***'ex nihilo'***
The Trinity	Father, Son and Holy Spirit	***"If you have seen me, you have seen the Father"***
THE PROBLEM OF EVIL		
Epicurus	"If God is omnipotent and omnibenevolent, why does evil and suffering exist?	
CHRISTIAN RESPONSES		
Genesis 3- Free Will	Ate from Tree of Knowledge of Good & Evil. Caused sin to enter into the world. **Evil= human fault.**	
Theodicy of Job	Job tested by Satan- told by wife to "curse God and die"- God asks Jobs impossible questions- accepts God's wisdom	

3. CREATION		
GENESIS 1		
Ex Nihilo	From nothing	'God said ***"Let there be light"***
Creation	6 days	***'and on the 7th day, God rested.'***
Imago Dei	Image of God	***"he created them in His image."***
GENESIS 2		
Adam	Made from dust, given a soul ***("breath of life")***	
Eve	Made from Adam's rib, made as a '**companion** for Adam	
ROLE AND NATURE OF HUMANS OF HUMANS		
Nature	Made in the image of God (Imago Dei) but sinful by nature- original sin.	
Role	To procreate & rule over nature *("fill the earth and subdue it")*	
Trinity	• ***Father***= *The Creator, overseer of all creation and humans* • ***'The Word'***= *Jesus, "In the beginning was the Word"* • ***Spirit***= *Holy Spirit e.g. "breath of life"*	

4. INTERPRETATIONS OF CREATION	
MODERN PROGRESSIVE	
Genesis = ancient myth	God did **not** make the universe in exactly 7 days. ***"yom"***= Hebrew- 'period of time.
Evolution	God started evolution 4.5 billion years ago and **guides** it through **Theistic-Guided Evolution**
The Big Bang	God **caused** the Big Bang ***Ex nihilo*** (God made the world from nothing)
FUNDAMENTALIST	
Creationism	The Genesis story is **100%** accurate. ***'Scripture is God-breathed'***
Young Earth	Earth= **10,000** years old- Biblical family tree traced to Adam
Evolution	Evolution is a myth/lie- 6 days.

5. LIFE OF JESUS	
Isaiah	Old Testament prophet who made predictions about a 'messiah'
"born of a virgin"	Jesus born to Mary who was a virgin
"He will be pierced for our transgressions"	Roman soldiers pierced Jesus' side with a spear to check he had died/prove he was human.
LIFE OF JESUS	
Incarnation- God in human form e.g. the birth of Jesus. • Gabriel announced to Mary/born in a stable • ***"If you have seen me, you have seen the Father"***	
Crucifixion - Jesus' death on a cross • Carried his own cross/ Crown of thorns/ Pierced with spear by Romans/ Died to forgive human sins ***"Forgive them Father for they know not what they do"***	
Resurrection- When Jesus rose from the dead 3 days after death • Empty tomb found by 2 women/ Appeared to people with 'stigmata' / Doubting Thomas touched his wound ***"He appeared to more than 500 brothers and sisters"***	
Ascension- Jesus physically ascended back up to Heaven • 40 days after resurrection from a hill in Bethany ***"I will be with you always"***	

6. SALVATION		
Atonement	Jesus' death healing the rift between us and God.	
Salvation	To be saved from sin and death	
Catholic	Follow **sacraments e.g. baptism, eucharist**	Jesus set the perfect example (e.g. ***baptised in River Jordan)***
Quaker	**Help** others	***Parable of sheep and goats***
Protestant (Church of England)	**Believe** in Jesus **(faith)**	***"Whoever believes in me shall never die"***
GRACE AND HOLY SPIRIT		
Grace	The Holy Spirit carries God's grace **(mercy)** and helps people get saved.	

7. ESCHATOLOGY (AFTERLIFE)		
Bodily resurrection	We will be raised with immortal bodies	***"The body is sown perishable and raised imperishable"***
Jesus as the Judge	Jesus will save those who have helped others.	***Parable of Sheep and Goats ("When I was hungry you fed me")***
	Traditional View: Physical	**Contemporary view: Spiritual**
Heaven	* Rapture- We will physically ascend to Heaven (as Jesus did) **** God created the "Heavens and the Earth"*** * God's dwelling, angels, a new "tree of life."	* A feeling of closeness to God- "Heaven is within you" * Universalism- All souls will eventually experience Heaven.
Hell	* An eternal place of torture & darkness. **** "Weeping and gnashing of teeth"***	*Sinners will not be resurrected. ****"Sinners will not reach eternal life"***

Activate Windows

HOW CAN PARENTS HELP?

- **Show interest:** Ask what topic they're revising, discuss ideas or engage in debate. Exercise curiosity – ask them to explain 'why' they feel this way.

- **Use tools:** Test flashcards, stick key quotes on Post-its, or quiz them on their opinion about particular topics.

- **Past paper questions:** Students have access to a range of past paper questions on Teams/the Eduqas website – they can then use the mark schemes to check their answers.

- **Exam skills:** Get them to revise over the exam skills (these never change across the papers!) not just the content.

- **Encourage motivation:** Praise effort, celebrate progress, and link topics to real-life issues.
