

Jane Parsons
Director

Our daughter recently joined Huish Episcopi Academy in September 2020. She attended two primary schools prior to starting in her secondary school education and in both of these schools I was heavily involved with the school as a member of both PTA's. Now that an opportunity has arisen for a parent governor, I would welcome the opportunity to contribute to and support the Academy board in maintaining high educational and financial performance.

I work for a leading UK Awarding body who are part of an International exams group, my role is working within Sales and Marketing and Customer Service. I have had a varied career working within different sectors, 14 years of which have been in the Education sector. All my roles have been customer focused and my skills that I believe would offer great benefit to the role of parent governor are excellent communication, enthusiasm and able to listen and empathise with people whilst also sharing and discussing varied opinions. I am committed and always keen to develop new skills.
