

MRS M HATTON
D I R E C T O R

I am pleased to be joining the Governing Body of Huish Episcopi Academy in January 2019. A current serving British Army Officer, I commissioned into the Adjutant Generals Corps (Staff and Personnel Support Branch) in 2010. There have been many opportunities as a Staff Officer to engage across the spectrum of career fields, but my primary focus this far has been in the "Personnel" area and the "Capability & Acquisition" domain. I have a proven track record of influence, project management, change management, problem solving and decision making in the Defence environment to board level. Most recently, I lead the transition of the Army's Business Administration Apprenticeship to the Government's new Apprenticeship Standards.

I am bilingual German and a keen linguist. Following a BA(Hons) degree in Social Studies, I completed an advanced Business Management Apprenticeship in Germany. The finance and audit skills gained from the Apprenticeship have continued to grow to this day. With "value for money" at the forefront of my mind, we need to get it right for the young people in our community. I have a daughter at the school and am therefore keen to provide my skills and inquisitive nature to the board to help contribute to positive outcomes for the School and its young people.
